1931

Flowers for All Occasions

— Grown by —

VALENTIN BURGEVIN, Inc.
KINGSTON, NEW YORK

Foreword

IN INTRODUCING our catalog for 1931, we do so with a deep sense of appreciation of our many customers whom Burgevin's have had the privilege of serving so many years—that is, through our many friends that we have been able to grow and prosper and thus produce many varieties of plants and flowers in a large volume.

We take this opportunity to express our thanks to our customers and pledge ourselves to even greater service in the future.

Our volume is large. But everything we produce, every operation, practically must be carried on by hand, the wheelbarrow being about the only approach to a machine used. Due to the manual labor involved and for many obvious reasons, our overhead is tremendous and thus it is that our margin of profit is small. We are striving, however, to keep our costs as low as possible, which will in turn enable us to keep our prices moderate.

Essentially then, this catalog is not a price list—price, we feel, is secondary to those who demand "*Burgevin Quality*" and "*Burgevin Price*" we are told, is equally attractive—but here, rather is a list of plants to help you to choose for your garden and never have you had a better choice.

GEORGE BURGEVIN
DAVID BURGEVIN
ELTINGE A. BURGEVIN

New Introductions

We offer new varieties in CANNAS and DAHLIAS. Also a new BUDDLEIA (*Butterflybush*)—BUDDLEIA FARQUHAR, which is a deep rich purple and is a very great improvement over the old one.

GYPHOPHILA, BRISTOL FAIRY—a hardy Babysbreath with flowers double and many times larger than the old one.

Also a few unusual plants in limited quantities.

A Few Specialties

We have a limited quantity of DWARF EVERGREENS in variety from 1 to 4 feet high, priced at from \$1.00 to \$5.00 each. Also, dwarf bloodleaved JAPAN MAPLES, about 12 inches high, at \$2.00 each.

HARDY HYDRANGEA, bush form—\$1.00 each; and

HARDY HYDRANGEA, tree form—\$1.50 to \$2.00 each.

General Directions

Important: Please Note

CASH DISCOUNTS—We allow no discounts for cash. However, we make no charges for packing or delivery to transportation company.

IMPORTANT—When ordering, please be definite. It is often impossible for us to duplicate orders of previous years, due to the fact that there has often been more than one order that year. It is not advisable to ship plants by parcel post except in very small quantities, and then only when not pot grown.

You will be doing us a favor, and at the same time be assured of greater service, if when giving orders to be called for in the future, you will send your order in some time ahead, stating when you will call.

PLEASE NOTE—When remittances are sent with orders to be forwarded by parcel post, postage must be added to the amount, as follows: 15 cents on orders amounting up to 50 cents; 20 cents on orders from 50 cents to \$1.00; 25 cents on orders from \$1.00 to \$1.50; 35 cents on orders from \$1.50 to \$2.00.

For the convenience of our patrons, when ordering by telephone after 6 o'clock p.m., and on Sundays and Holidays, the phone calls are 2584, 897 and 1092.

It is impossible to state definitely when plants can safely be set out, rather go by the calendar than by the weather. Perennials can be planted out when the ground in the open is in condition to be prepared to receive them, which is usually about May 1st. Tender plants should not be planted until after May 15th.

We make no charges for boxes or packing, nor delivery to transportation companies, but there our responsibility ceases. We cannot be held responsible for our goods while en route. If received in bad condition, sign for them in that way and make complaint at once against transportation company.

We grow all the plants and flowers we sell. You get them fresh, that's why they last so long.

Burgevin's cut flowers in a wide assortment of varieties, with prices always moderate, have become absolutely dependable to our customers. The beauty and grade of our cut flowers rivals only their unusual lasting qualities.

We want that every customer should be entirely satisfied with his purchase, and to that end, all care is taken by us in filling each order. However, we cannot be responsible for goods enroute. After leaving our hands, the transportation company is responsible. If through any discrepancy on our part, should the goods prove unsatisfactory, we will gladly correct our error, or refill the order.

MINIATURE JAPANESE GARDENS

A Joy the Year 'Round

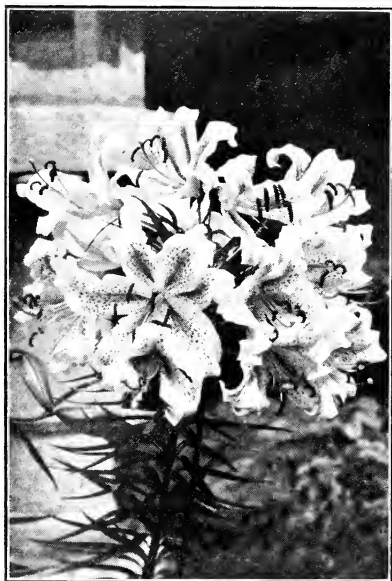

We can furnish practically any size in assorted styles and shapes, in attractive pottery. They are attractively made up and extremely practical. Much amusement and joy is obtained by placing one of these dishes perhaps in a vacant corner or bare table in your home. These miniature gardens add interest to your home and it is a pleasure to care for them and watch the little plants grow. You can have them made up to order if you wish.

Also we have an interesting assortment of novelty pottery. They made attractive favors—you will find them excellent for card party prizes.

DUTCH BULBS

Our bulbs are grown in Holland and imported by us directly from the grower.
TULIPS :: HYACINTHS :: DAFFODILS :: SCILLA :: CROCUS

We have the widest possible assortment including the best colors and shades. It is important for your own protection to order bulbs early in the Fall when the assortment is complete. You will then be assured of getting exactly what you want. The bulbs are here often the middle of September.

Lilium Auratum

HARDY JAPAN LILY BULBS *for the Garden*

AURATUM

Petals cream white, spotted red, with a golden band running through each petal. 75c. each, \$6.00 per doz.

ALBUM

Pure white. 75c. each, \$6.00 per doz.

MAGNIFICUM

White edged and spotted pink. 75c. each, \$6.00 per doz.

MADONNA LILIES (*Lilium candidum*)

Our bulbs were grown in the north of France where the best Madonna Lilies are produced. To be planted in August. Mammoth bulbs 35c. each, \$3.50 per doz.

REGALE

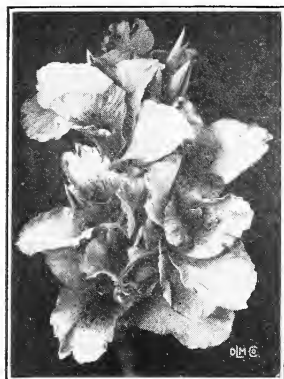

Exceptionally lovely—white, suffused with pink, merged from a golden yellow center. Delightfully fragrant. 75c. each, \$6.00 per doz.

GLADIOLUS

A new interest has sprung up in the Gladiolus. New varieties have been introduced and many fine new colors. The Gladiolus is possibly the easiest growing bulbs—no one should be without a few in his garden.

We offer a Special Collection of Assorted Varieties at 50c. per doz.
Also—We can supply 20 of the best varieties, each a separate color
at from 50c. to \$1.00 per doz.

Plant the bulbs not less than 4 inches deep in well prepared soil. You can be assured of abundance of bloom from July till frost by successive planting every two weeks.

Canna, King Humbert
(See page 6)

Verbena (See page 6)

Didiscus caeruleus
Blue Laceflower (See page 4)

Plants Best Suited for Bedding, Window Boxes and Vases

We can furnish many plants not herein listed and will quote prices on application. We deem it a pleasure to advise our friends and patrons, upon request, as to when, how and what to plant for specific purposes and gardening in general. Visitors are welcome to our grounds and greenhouses, which are always open to the public. Week days, from 7 a.m. to 6 p.m.

The following group we have selected for plants which are used for bedding, to fill window boxes, urns, and the like. Those marked (*) are best suited for window boxes, etc.

(Not less than 50 plants at hundred rates)

*FUCHSIA. There is an increasing demand for this old-fashioned plant, of which we can supply the leading Summer flowering varieties.....	.25- .50	3.00-5.00

GERANIUMS

We have reduced the price of Geraniums still further this year to the lowest they have been in many years. The plants, however, are by customer acclaim, the usual unsurpassed quality. They are expertly grown in large size pots. Our plants are large, bushy and shapely, and because of the unusual care given them at the critical stages of their development, you will find them particularly hardy.

No plant has as yet shown its adaptability to bedding as has the Geranium because of the bright, showy colors, large flowers and general hardness to the effects of nature. No other plant is so satisfactory under the same situation.

The following are some of the best varieties we grow:

Color	Kind	Each	12	100
Brick red.....	A. Ricard.....	\$0.25	\$3.00	\$25.00
Dark red.....	S. A. Nutt.....	.25	3.00	25.00

White.....	Mme. Buchner.....	.25	3.00	25.00
Salmon pink, single.....	Mrs. E. Hill.....	.25	3.00	25.00
Pink and white, single.....	Richmond.....	.25	3.00	25.00

Pans of Geraniums from 3 to 12 plants

These pans are used mostly for cemetery plots but are excellent for porches, entrances, etc. The prices are \$1.25 to \$5.00 each.

	Each	Doz.
Ivy or Vining Geranium, Double or Single. Pink, white and red....	\$0.30	\$3.50
Variegated Leaved Geranium, Mme. Sallerol. Low growing, for edging.	.20	2.50
Sweet Scented Geraniums. Lemon, rose, balsam, peppermint, apple, skeleton leaved.....	.25	3.00

GLADIOLUS, "Our Special" Collection of Assorted Varieties, 50c. per doz.

We will supply 20 of the best varieties of Gladiolus, in separate colors, at from 75c. to \$1.00 per 12.

GLOXINIA. A beautiful, trumpet shaped flower with rich, distinctive colors. Not suitable for planting out, but excellent as a house plant and fine for the porch. It requires little sun. Ready June 1st.....	Each	12
	\$0.50-\$1.00	\$5.00-\$7.50

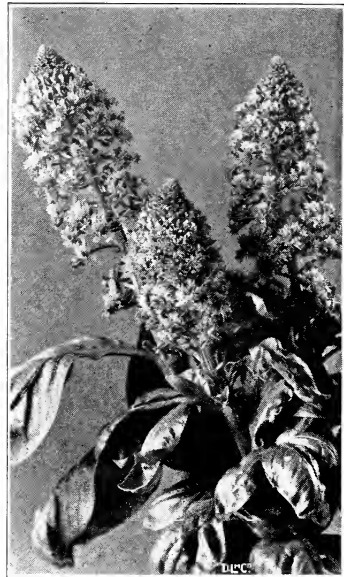

Border Planting of Geraniums (See page 4)

	Each	12
HELIOTROPE. Light and dark shades.....	\$0.25-\$0.35	\$3.00-\$4.00
HYDRANGEA. Tender varieties. Used to good advantage for decorative purposes. They do best when left in pots. .75-	3.00	7.50-25.00
*IMPATIENS Sultani25	2.50
LEMON VERBENA. No garden should be without one or two plants of this very fine, fragrant-leaved plant.....	.25- .50	3.00- 5.00
MIGNONETTE. Pot-grown.....	.15	1.50
*NASTURTIUM. Pot-grown, dwarf and climbing.....	.15	1.50
NICOTIANA. Tobacco Plant. White, pink and red.....	.15	1.50
PALMS. Leading varieties in all sizes.....	.50-25.00	
PANDANUS veitchi	1.00- 5.00	
PANSIES. Our Pansies are from the finest strains grown and should not be classed with other varieties offered for sale promiscuously in stores or along the high-ways.....	100, \$5.00	.06 .60
*PELARGONIUM or MARTHA WASHINGTON GERANIUM. A continuous blooming and quite hardy plant. We offer them to you in the newest and most attractive varieties: Single pots.....	.50- 1.00 each	
Made up in large pots.....	1.50- 5.00 each	
PENNISETUM (Fountain Grass). The graceful foliage and flowers of this plant are almost indispensable in a subtropical planting, <i>i. e.</i> , among Cannas, Caladiums, etc.		
Crimson Foliage25	2.50
Green Foliage20	2.00

When sending a box of flowers to a friend you get more for your money when leaving the selection to us than picking them out yourself

	Each	12

Wyoming. Salmon-flowered.....	.6 ft.	.25	3.00	25.00

DAHLIAS

This old-time Fall flowering garden favorite is again becoming very popular, largely because of the great improvement of the various types in the past few years, and because these newer varieties are easier to handle and are more free flowering. Avoid planting among shrubbery or in congested places, because Dahlias like plenty of open space for proper development. The varieties we offer have been tried out on our own grounds and found the most satisfactory as to productiveness and charming colorings of blooms in their respective classes, viz.: Cactus, Peony-flowered, Decorative; Show or Fancy, Collarettes, Pompon and Single-flowering.

Dahlia, Cactus

CACTUS DAHLIAS		Each	12
Alabaster.	Pure white.....	\$0.50	\$5.00

We have revised our Dahlia List and selected only best varieties in various classes, *i. e.*, those which are profuse bloomers and have distinct colors.

Try our special introductory offer of 12 Dahlias, including all types, at \$2.50 for 12.

Hybrid Tea Roses

ROSES

A few salient points on their cultivation.

Before planting, dig the bed up from 12 to 18 inches deep, incorporating an abundance of well rotted manure. When planting, insert the plant in the ground so that the graft is covered to 2 or 3 inches below the soil level, taking care to make the soil firm around the plant, leaving a depression around the plant to hold the water.

Roses need lots of water when dry and it is important to give the plants a thorough watering. Roses need an abundance of fertilizer. Bonemeal is very beneficial. However Vigoro, the prepared fertilizer is recommended because it is a complete plant food furnishing every food element the plant requires.

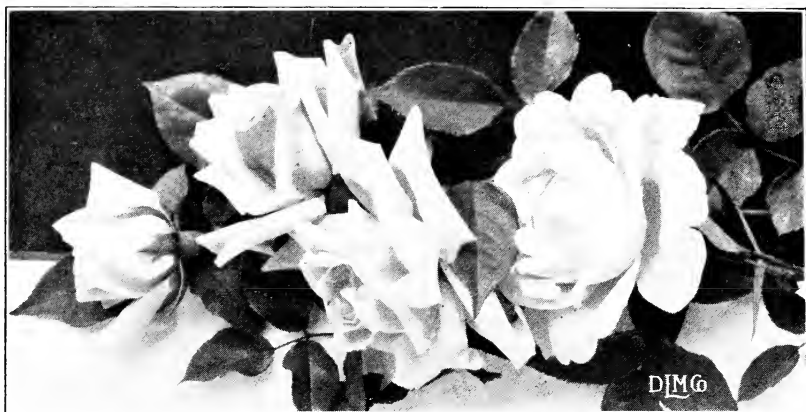

When syringing Roses, always do so in the morning and only when the sun is shining. This allows the foliage to become dry before the evening. Damp or wet foliage in the evening will cause Black Spot and mildew.

In the Fall, before the ground freezes, the Hybrid Tea Roses should have a mound of soil placed around the plants from 10 to 12 inches high. After the ground is frozen to a depth of 3 or 4 inches, the entire bed should be covered with salt hay or coarse horse manure to a depth of 6 inches. Hybrid Perpetual Roses do not require the mounding of the soil around them, but the covering of the soil with coarse manure or salt hay is beneficial for these also.

Our Roses are all pot-grown and can therefore be planted out any time without disturbing the roots.

We have about 40 of the best varieties, including the new introductions, and recommend each one for its habit of growth, hardiness, productivity and its color.

When remittance is sent with order to be sent by Parcel Post, add postage

OWN ROOT ROSES

These are not grafted, but are grown from their own roots. While they are not as strong or as large as grafted Roses, we do recommend them as being entirely satisfactory.

75c.—\$1.00 each, \$7.50—\$10.00 per doz.

American Beauty. Cherry red.
Double White Killarney. One of the best white.
Red Premier.
F. R. Pierson. Red.
Mme. Butterfly. Improved Ophelia.
Mrs. Aaron Ward. Apricot.
Premier Supreme. Rich dark pink.
Rapture. Pink and cream.
Kaiserin Auguste Viktoria. Cream white.
Roselandia. Yellow.
Briarcliff. Pink; one of best.
Angelus. White.
Templar. Red.
Padre. Coppery scarlet.
Milady. Red.

Lady Ashtown. Silvery pink.
Mrs. Sigmund Weber. Salmon.
Crusader. Velvety red.
Sunburst. Coppery yellow.
Betty Uprichard. Very fine, copper red and pink.
Radiance. Pink.

ANNUALS *Insure continual bloom throughout the Summer*

The seed from which spring our assortment of annuals is the all important factor in the uncommon success our customers have with them. The seeds we do not grow ourselves are purchased from the best houses in the United States and Europe. We sow the seeds about the middle of January in flats in the greenhouses and from then on till the time they leave our hotbeds for your garden, they must have constant attention and handling. All this painstaking care, however, is rewarded in the form of large, healthy, stocky, and most important, hardy plants.

The advantages of securing annual plants over the planting of seeds are for the most part quite obvious, but essentially there is the surety of production and second, the advantage of much earlier bloom which insures full development for the plants.

Lawn Grass Seed

Lb. 45c., 2 lbs. 90c., 5 lbs. \$2.25, 10 lbs. \$4.25, 20 lbs. \$8.50

Shady Lawn Seed

Lb. 50c., 2 lbs. \$1.00, 5 lbs. \$2.40, 10 lbs. \$4.75, 20 lbs. \$9.00

The formula used for our grass seed consists of: **Fancy Red Top, 40%, Kentucky Blue Grass, 30%, Rye Grass, 10%, White Clover, 5%.**

We have selected a highly efficient combination of the best seeds obtainable and especially suited for this climate. We do not carry any cheap grades.

FERTILIZERS

VIGORO—A Balanced Fertilizer

Plants, like ourselves, need a balanced diet.

Every blade of grass, every leaf, flower and seed is composed, to a considerable extent, of plant food elements taken from the soil. It took nature thousands of years to accumulate the small store of food in the soil. Continuous gardening depletes the supply and unless it is replenished, proper growth cannot continue.

Recognizing the need for a plant food which would supply all of the elements taken from nature's pantry, Swift and Company, after years of scientific research, developed Vigoro.

Vigoro contains every element necessary each in the right proportion, for full growth and beauty. When Vigoro is used, no other materials are needed.

Price of ½ ton and ton lots of Vigoro given on request. We are distributors for Ulster and surrounding counties.

Small cans.....	\$0.20	25 lb. bag.....	\$1.75
5 lb. cans.....	.50	50 lb. bag.....	3.00
100 lb. bag.....	\$5.00		

PEAT MOSS

Finely granulated. This is comparatively a new product in itself. It has not much value as a fertilizer, but it is valuable when incorporated in the soil, holding moisture, and when decayed, as a substitute for stable manure. We recommend it highly.

Price: ½ bale \$2.50, bale \$4.00
2-bu. container....\$1.50

DRICONURE

We have discontinued handling Humus and recommend Driconure, a combination of peat moss and cow manure—odorless. It is a real plant food beside being a soil conditioner. This product is an excellent substitute for Humus and considered better. Sold only in 50-lb. bags (about 3 bushels) \$3.00 per bag.

LET
MOTHER NATURE
AID YOUR GARDENER

Application — new seeding, work in about one-third of a bag (20 lbs.) which is a light application for rich soils, and double this quantity as a heavy application for poor soils, to each 150 sq. ft. As a top-dressing on gardens and lawns, one bag to about 400 sq. ft. Spade in about a trowel full around bushy perennials, roses, lillies, chrysanthemums and shrubs.

T

THE DESIRABLE LAWN AND GARDEN TOP DRESSING AND SOIL CONDITIONER

The need for a high-grade, sterile, odorless, ready-to-use, dehydrated cow manure combined with a sterile, high test source of organic media contributing active humus to soils, brought about the development of DRICONURE—ready-to-use turf and garden dressing, which is made of materials of the best quality.

The ingredients are just manure from high protein fed cows and quality peat moss functioning as a humus making material, and a reservoir for soil moisture. The composition is about thirty-five parts of peat moss and sixty-five parts cow feces—no straw, shavings, or trash. It analyzes almost equivalent to a 2-1-2 fertilizer, embodying the desirable properties of humus.

This product represents our idea of a real plant food and soil conditioner—not merely a stimulant. We urge you to try it. You will soon conclude it is just the tonic your lawn and garden soil needs—correcting over-fed, under-nourished, or worn-out soil troubles.

ANOTHER
ATKINS & DUSBROW, Inc.
PRODUCT

DRICONURE is radically different, combining advantages that cannot fail to interest you because of their practical value.

—is a turf dressing unlike any substitute medium.

—is a perfect buffer or filler for mixing with chemical fertilizers—prevents the leeching of the fertilizer—gaining the maximum value of the chemicals and making the plant food elements available over a longer period of time.

—is an organic food for soil organisms, which organisms make chemical fertilizing media available as plant food. DRICONURE being natural food for these organisms, they multiply rapidly and their multiplication helps pulverize the soil into a loam, thereby increasing aeration and water holding capacity.

—is sterile, weedless, and does not first have to be composted to hasten decomposition.

—is concentrated five to one and will regain its original form when coming in contact with the moisture in the soil.

—is cow manure on a peat moss base; dehydrated.

—is easy to apply and easy to handle. Packed in bags weighing about 50 lbs. . . . 3 to 3½ bushels in bulk.

Suggestions to Flower Lovers

The Care of Flowers and Plants

To prolong their life and fragrance the stems of flowers should be cut off each morning when the water is changed. They should be placed in a cool room over night with their stems immersed as deeply as possible in water. Rose buds should be sprayed with clear water, and Violets will retain their fragrance much longer if covered with tissue paper.

All blooming plants should be watered at least once, and perhaps twice, daily, and their period of blooming will be increased if kept in a light, cool room. The leaves of any plant should be kept free from dust.

The Care of Potted Plants

The cool days of Winter are cheered by pretty flowering and foliage plants; but while they are particularly fascinating at this time, it is during the coldest days that the plants require the most attention.

Never allow them to stand in front of an open window or in a cold draught. The intense dry heat in homes on extremely cold days will dry out the soil and wither or permanently injure most plants in a few days.

Planting Table

The table shows the number of plants required to fill a circular bed of the dimensions given. In planting, begin outside row—where 6 inches apart, 3 inches from edge of bed; where 12 inches apart, 6 inches from edge of bed. It is customary among professionals in planting a bed to set the plants somewhat closer together in the two outer rows, giving more space between each plant towards the center of the bed.

Diameter of bed	6 in. apart	12 in. apart	18 in. apart	24 in. apart	30 in. apart
3 feet.....	28	7
4 feet.....	48	12	6
5 feet.....	80	20	8
6 feet.....	112	28	13	7	...
7 feet.....	152	38	17	9	...
8 feet.....	200	50	23	12	...
9 feet.....	256	64	28	16	...
10 feet.....	320	80	36	20	13
11 feet.....	380	95	42	24	16
12 feet.....	452	113	50	28	18
13 feet.....	528	132	59	33	22
14 feet.....	612	153	68	39	25
15 feet.....	704	176	78	44	28
16 feet.....	804	201	89	50	32
17 feet.....	904	226	100	57	36
18 feet.....	1016	254	113	63	40
19 feet.....	1132	283	126	71	46
20 feet.....	1256	314	139	78	50

A square bed will take about the same number of plants. For an oval bed, add length and breadth and divide by 2. For example, an oval 7 feet long by 5 feet wide will require same number of plants as a circular bed 6 feet in diameter.

INDEX

Annuals.....	12
Bulbs.....	2
Cannas.....	6
Dahlias.....	7-8
Fertilizers.....	18
Geraniums.....	4-5
Hardy Perennials.....	13-14
